

Dr. Pablo Gonzalez

Dr. Pablo Gonzalez received his Master's in Materials Science at the European Engineering School of Chemistry, Polymers and Materials of Strasbourg in 2012, and finished his PhD in nanoceramics at the University of Twente (Netherlands) in 2016. He is specialized in ceramic materials and ceramic shaping processes with a broad chemistry background. Dr. Gonzalez is Materials Science Specialist, responsible of materials innovation, at ADMATEC Europe (the Netherlands), a company leader in additive manufacturing of high tech ceramic and metal components.
