4th International Conference on Community Ecology

20-22 September 2023

National Institute of Oceanography and Applied Geophysics - OGS / Trieste, Italy

Program*

	Wednesday / 20 September		
13:00-14:00	Aula Magna Miramare Registration	Room A Miramare	
14:00-14:30 14:30-15:15	Opening speech Plenary talk / Carlos Pérez Carmona (Estonia): Mapping and exploring trait spaces across the tree of life (Chair: G. Bacaro)		
	Mapping and exploring trait spaces across the tree of life (Chair: G. Bacaro) Pattern of species richness and diversity in terrestrial and freshwater systems (Chair: E. Feoli)	From individuals to macroecology (Chair: E. Tordoni)	
5:15-15:30	Enrico Feoli (Italy): Matrices of co-occurrence and their role in the study of ecological communities: one example with red and white spruce forests of the	Marie-Sophie Rohwäder (Germany): Foraging personalities modify effects of habitat fragmentation on biodiversity	
15:30-15:45	Friulian Mountains. Duccio Rocchini (Italy): The ecological nitty gritty of the spectral species concept	Eleonora Beccari (Estonia): Environment drives the position of mammalian species in the global spectrum of life histories	
15:45-16:00	Yaşar Gültekin (Türkiye): Reconfiguring Mountainous Landscapes: Smart Countryside Practises in Bilecik Province	Elisa Marchetto (Italy): Portrayal of spatiotemporal bias and uncertainty in the sPlotOpen database	
16:00-16:30	Coffee break (Forefront of Aula Magna Miramare) Pattern of species richness and diversity in terrestrial and freshwater	From individuals to macroecology (Chair: E. Tordoni)	
16:30-16:45	systems (Chair: E. Feoli) Valentina Olmo (Italy): Disentangling vegetation cover and structure influence on spectral diversity: insights from a study in North-Eastern Italian forests	Elisa Thouverai (Italy): Mapping diversity: how do environmental heterogeneity patterns change in space and time?	
16:45-17:00	Mirjana Šipek (Slovenia): Alien and ancient forest indicator plant species in temperate lowland forests respond differently to fragmentation	Angelo Perilli (Italy): Ocean data analysis to unveil sea turtle behavioural traits	
17:00-17:15	Nicodemo Passalacqua (Italy): Surveying pasture communities in diachronic analyses by 3D Models		
17:30-20:00	Welcome reception with Jam session (ICTP Terrace) Thursday / 21 September		
	Aula Magna Miramare	Room A Miramare	Room B Miramare
8:30-9:15 09:15-10:00	Registration Plenary talk / Aditee Mitra (UK): Plankton community structure and functioning under climate change – the mixoplankton dimension (Chair: F. Petruzzellis)		
10:00-10:10 10:10-10:30	Group photo Coffee break (Forefront of Aula Magna Miramare)		
10.00.40.45	Pattern of species richness and diversity in terrestrial and freshwater systems (Chair: F. Petruzzellis)	Biodiversity and ecosystem functioning in marine systems (Chair: P. Lazzari)	Conservation biology and remediation ecology (Chair: G. Lövei)
10:30-10:45	Alessandro Chiarucci (Italy): Biogeography and conservation meaning of plant species richness in small Mediterranean islands	Luca Polimene (Italy): A model-based, generalised eutrophication index for European Seas	Marco Bertoli (Italy): Ecological preferences of the south european nase lasca (Protochondrostoma genei, Bonaparte 1939) in the Chiarò di Cialla Creek (Northeast Italy): new insights and conservation perspectives
10:45-11:00	Damiano Baldan (Italy): Effects of longitudinal fragmentation on riverine beta diversity: a cross-catchment comparison	Ivano Vascotto (Italy): Comparing different estimation methods for phytoplankton traits: biomass, size, morphology, and their distribution	Ludovico Chieffallo (Italy): A novel approach for surveying flowers as a proxy for bee pollinators using drone images
11:00-11:15	Isabel Cantera (Italy): Succession in soil communities after glacier retreat: replacement versus taxa addition	Luis Amado Ayala Pérez (Mexico): Environmental behavior and fish abundance in some coastal systems of the southern Gulf of Mexico: Temporal integration analysis	Emanuele Fanfarillo (Italy): Effectiveness of different metrics of Floristic Quality Assessment: the simpler, the better?
11:15-11:30	Simone Giachello (Italy): Regional features shape the ecological succession of soil protist communities in glacier forelands around the world	Krystian Obolewski (Poland): Hydrological connectivity a one of key factors in ecological integrity	Maija Štokmane (Latvia): Spatial distribution modelling of insects and spiders within mire habitats in Latvia by using the remote sensing and machine learning techniques: a brand new approach
11:30-11:45 11:45-12:00	Agnese Marcelli (Italy): A design-based view of species richness estimation Francesco Petruzzellis (Italy): Coordination between water-related traits and the	Ilona Złoch (Poland): Biodiversity of marine endoliths	Emilia Pafumi (Italy): In&Out: comparing plant diversity of coastal dunes inside ar outside the protected areas of Northern and Southern Tuscany Mohcen Menaa (Algeria): Bird assemblage response to Atlas cedar afforestation
	leaf economic spectrum		Moncen Menaa (Algeria): Bird assemblage response to Atlas cedar afforestation of Mount M'Cid, Northeastern Algeria: a synecological approach for conservation management
12:00-12:15 12:30-14:00	Jakub Buda (Poland): Are the bacterial and eukaryotic assemblages related to environmental radioactivity on glacier surfaces? Lunch (ICTP Canteen)		
14:00-14:45	Plenary talk / Catherine Longo (UK): From ocean to plate: community level climate change impacts on		
	sustainable seafood (Chair: S. Libralato) Pattern of species richness and diversity in terrestrial and freshwater systems (Chair: D. Rocchini)	Pattern of species richness and diversity in marine systems (Chair: P. Lazzari)	Ecosystem services (Chair: J. Grilli)
14:45-15:00	Francesco de Bello (Spain): Differences in trait–environment relationships: implications for Community Weighted Means (CWMs) tests	Eva Álvarez (Italy): A diversity-inspired version of the Biogeochemical Flux Model	Davide Agnetta (Italy): Bio-economic indicators evidence fishing effort reduction and climate change effects from a dynamic food web model in a central Mediterranean fishing area
15:00-15:15	Giacomo Puglielli (Spain): IT-V net: the ITalian Intraspecific Trait Variability network	Enrico Cecapolli (Italy): Assessing the contribution of three key habitats to the overall Mediterranean coastal fish diversity: the case study of Calabria	Heidi Simion (Italy): An ecosystem service-based approach to assess multifunctionality in the Alpine region
15:15-15:30	Pua Bar (Israel): Spatial heterogeneity effect on meta-community stability of annual plants from an Eastern-Mediterranean coastal dune ecosystem	Bernardo Patti (Italy): Biodiversity temporal patterns in the larval fish community of the Strait of Sicily (Central Mediterranean) and the role of local hydrodynamic processes	
15:30-15:45	Gwen Bury (USA): Patterns of forest associated freshwater fish, amphibians, reptiles, mussels, and crayfish at the scale of the conterminous United States.		
15:45-16:15 16:15-17:15	Coffee break (Forefront of Aula Magna Miramare) Poster session* (Forefront of Aula Magna Miramare)		
17:15-18:00	Plenary talk / Gábor Lövei (Denmark / Hungary): In praise of the rare species (Chair: F. Jordán)		
	Friday / 22 September Aula Magna Miramare	Room A Miramare	Room B Miramare
08:30-09:15	Registration		
09:15-10:00	Plenary talk / Lynne Shannon (South Africa):		
	Plenary talk / Lynne Shannon (South Africa): From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare)		
10:00-10:30	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán)	Biodiversity and ecosystem functioning in terrestrial ecosystems (Chair: G. Bacaro)	Effects of global changes (Chair: E. Gissi)
10:00-10:30 10:30-10:45	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán) András Hidas (Hungary): Uncovering causality in ecological networks by interaction asymmetry	Bacaro) Michele Torresani (Italy): Exploring biodiversity patterns in forest ecosystems using LiDAR remote sensing data: unravelling the influence of forest height heterogeneity	Elena Gissi (Italy): Exploring potential climate refugia through scenario analysis of marine megafauna functional diversity in the Northeast Pacific Ocean
10:00-10:30 10:30-10:45 10:45-11:00	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán) András Hidas (Hungary): Uncovering causality in ecological networks by interaction asymmetry Daniele Bellardini (Italy): Plankton and fish community changes investigated by environmental DNA metabarcoding at spatio-temporal scales along the Campania coast (Italy)	Michele Torresani (Italy): Exploring biodiversity patterns in forest ecosystems using LiDAR remote sensing data: unravelling the influence of forest height heterogeneity Alessandro Bricca (Italy): Above- and belowground traits along a stress gradient: trade-off or not?	Elena Gissi (Italy): Exploring potential climate refugia through scenario analysis of marine megafauna functional diversity in the Northeast Pacific Ocean Francesco Boscutti (Italy): The shape of plant community to come: linking species functional response and climate-induced shifts in alpine tundra dwarf shrub community
10:00-10:30 10:30-10:45 10:45-11:00 11:00-11:15	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán) András Hidas (Hungary): Uncovering causality in ecological networks by interaction asymmetry Daniele Bellardini (Italy): Plankton and fish community changes investigated by environmental DNA metabarcoding at spatio-temporal scales along the Campania coast (Italy) Igor Celic (Italy): Ecosystem approaches to support quantitative assessment of fisheries undergoing certification processes	Bacaro) Michele Torresani (Italy): Exploring biodiversity patterns in forest ecosystems using LiDAR remote sensing data: unravelling the influence of forest height heterogeneity Alessandro Bricca (Italy): Above- and belowground traits along a stress gradient:	Elena Gissi (Italy): Exploring potential climate refugia through scenario analysis of marine megafauna functional diversity in the Northeast Pacific Ocean Francesco Boscutti (Italy): The shape of plant community to come: linking species functional response and climate-induced shifts in alpine tundra dwarf shrub community Michele Di Musciano (Italy): Dynamics of mountain vegetation under global change: the microclimate role
10:00-10:30 10:30-10:45 10:45-11:00 11:00-11:15 11:15-11:30	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán) András Hidas (Hungary): Uncovering causality in ecological networks by interaction asymmetry Daniele Bellardini (Italy): Plankton and fish community changes investigated by environmental DNA metabarcoding at spatio-temporal scales along the Campania coast (Italy) Igor Celic (Italy): Ecosystem approaches to support quantitative assessment of fisheries undergoing certification processes Elisa Donati (Italy): Spatial multi-criteria analysis based on the results of a food web model: application to a marine Natura 2000 site Ferenc Jordán (Italy): Aggregating food webs: algorithms, functioning and	Michele Torresani (Italy): Exploring biodiversity patterns in forest ecosystems using LiDAR remote sensing data: unravelling the influence of forest height heterogeneity Alessandro Bricca (Italy): Above- and belowground traits along a stress gradient: trade-off or not? Lucia Doni (Italy): The flora diversity under taxonomic, phylogenetic and functional trait aspects of sub- and alpine semi-natural grassland habitats	Elena Gissi (Italy): Exploring potential climate refugia through scenario analysis of marine megafauna functional diversity in the Northeast Pacific Ocean Francesco Boscutti (Italy): The shape of plant community to come: linking species functional response and climate-induced shifts in alpine tundra dwarf shrub community Michele Di Musciano (Italy): Dynamics of mountain vegetation under global change: the microclimate role Diego Panzeri (Italy): Future distribution of demersal species in a warming Mediterranean sub-basin Giacomo Trotta (Italy): Soil salt, nitrogen and organic matter content drive early
10:00-10:30 10:30-10:45 10:45-11:00 11:00-11:15 11:15-11:30 11:30-11:45	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán) András Hidas (Hungary): Uncovering causality in ecological networks by interaction asymmetry Daniele Bellardini (Italy): Plankton and fish community changes investigated by environmental DNA metabarcoding at spatio-temporal scales along the Campania coast (Italy) Igor Celic (Italy): Ecosystem approaches to support quantitative assessment of fisheries undergoing certification processes Elisa Donati (Italy): Spatial multi-criteria analysis based on the results of a food web model: application to a marine Natura 2000 site	Michele Torresani (Italy): Exploring biodiversity patterns in forest ecosystems using LiDAR remote sensing data: unravelling the influence of forest height heterogeneity Alessandro Bricca (Italy): Above- and belowground traits along a stress gradient: trade-off or not? Lucia Doni (Italy): The flora diversity under taxonomic, phylogenetic and functional trait aspects of sub- and alpine semi-natural grassland habitats Hana Soualah Alila (Algeria): Butterflies species abundance dynamics and Distribution of Souk Ahras Forest (North east of Algeria) Maurizio Zotti (Italy): Fairy ring fungi regulate species coexistence in grasslands Eman ALHeresh (Palestine): Threat analysis for a network of sites in West Bank	Elena Gissi (Italy): Exploring potential climate refugia through scenario analysis of marine megafauna functional diversity in the Northeast Pacific Ocean Francesco Boscutti (Italy): The shape of plant community to come: linking species functional response and climate-induced shifts in alpine tundra dwarf shrub community Michele Di Musciano (Italy): Dynamics of mountain vegetation under global change: the microclimate role Diego Panzeri (Italy): Future distribution of demersal species in a warming Mediterranean sub-basin Giacomo Trotta (Italy): Soil salt, nitrogen and organic matter content drive early successional plant community composition in dune systems by curbing alien invasion and enhancing native plant diversity. Ralf Ohlemuller (New Zealand): Up or Around – contrasting effects of elevation
10:00-10:30 10:30-10:45 10:45-11:00 11:00-11:15 11:15-11:30 11:30-11:45 11:45-12:00	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán) András Hidas (Hungary): Uncovering causality in ecological networks by interaction asymmetry Daniele Bellardini (Italy): Plankton and fish community changes investigated by environmental DNA metabarcoding at spatio-temporal scales along the Campania coast (Italy) Igor Celic (Italy): Ecosystem approaches to support quantitative assessment of fisheries undergoing certification processes Elisa Donati (Italy): Spatial multi-criteria analysis based on the results of a food web model: application to a marine Natura 2000 site Ferenc Jordán (Italy): Aggregating food webs: algorithms, functioning and expertise Guido Occhipinti (Italy): Stochastic noise effects over plankton communities Natalia Serpetti (Italy): PLASTIC-WEB: Tracing microplastics up the EU marine	Michele Torresani (Italy): Exploring biodiversity patterns in forest ecosystems using LiDAR remote sensing data: unravelling the influence of forest height heterogeneity Alessandro Bricca (Italy): Above- and belowground traits along a stress gradient: trade-off or not? Lucia Doni (Italy): The flora diversity under taxonomic, phylogenetic and functional trait aspects of sub- and alpine semi-natural grassland habitats Hana Soualah Alila (Algeria): Butterflies species abundance dynamics and Distribution of Souk Ahras Forest (North east of Algeria) Maurizio Zotti (Italy): Fairy ring fungi regulate species coexistence in grasslands Eman ALHeresh (Palestine): Threat analysis for a network of sites in West Bank (Palestine): An expert-based evaluation supported by grey literature and local knowledge Rasheed Adeleke (South Africa): Interplay between bacterial community assembly	Elena Gissi (Italy): Exploring potential climate refugia through scenario analysis of marine megafauna functional diversity in the Northeast Pacific Ocean Francesco Boscutti (Italy): The shape of plant community to come: linking species functional response and climate-induced shifts in alpine tundra dwarf shrub community Michele Di Musciano (Italy): Dynamics of mountain vegetation under global change: the microclimate role Diego Panzeri (Italy): Future distribution of demersal species in a warming Mediterranean sub-basin Giacomo Trotta (Italy): Soil salt, nitrogen and organic matter content drive early successional plant community composition in dune systems by curbing alien invasion and enhancing native plant diversity.
10:00-10:30 10:30-10:45 10:45-11:00 11:00-11:15 11:15-11:30 11:30-11:45 11:45-12:00 12:00-12:15	From species to ecosystems: exploring community-based indicators as the missing link in marine assessments (Chair: E. Gissi) Coffee break (Forefront of Aula Magna Miramare) Ecological networks and food webs (Chair: F. Jordán) András Hidas (Hungary): Uncovering causality in ecological networks by interaction asymmetry Daniele Bellardini (Italy): Plankton and fish community changes investigated by environmental DNA metabarcoding at spatio-temporal scales along the Campania coast (Italy) Igor Celic (Italy): Ecosystem approaches to support quantitative assessment of fisheries undergoing certification processes Elisa Donati (Italy): Spatial multi-criteria analysis based on the results of a food web model: application to a marine Natura 2000 site Ferenc Jordán (Italy): Aggregating food webs: algorithms, functioning and expertise Guido Occhipinti (Italy): Stochastic noise effects over plankton communities	Michele Torresani (Italy): Exploring biodiversity patterns in forest ecosystems using LiDAR remote sensing data: unravelling the influence of forest height heterogeneity Alessandro Bricca (Italy): Above- and belowground traits along a stress gradient: trade-off or not? Lucia Doni (Italy): The flora diversity under taxonomic, phylogenetic and functional trait aspects of sub- and alpine semi-natural grassland habitats Hana Soualah Alila (Algeria): Butterflies species abundance dynamics and Distribution of Souk Ahras Forest (North east of Algeria) Maurizio Zotti (Italy): Fairy ring fungi regulate species coexistence in grasslands Eman ALHeresh (Palestine): Threat analysis for a network of sites in West Bank (Palestine): An expert-based evaluation supported by grey literature and local knowledge Rasheed Adeleke (South Africa): Interplay between bacterial community assembly and climate variables with respect to maize-soy bean rotational system Roberto De Carolis (Italy): Lichen mycodiversity in Antarctica reveal the key role of	Elena Gissi (Italy): Exploring potential climate refugia through scenario analysis of marine megafauna functional diversity in the Northeast Pacific Ocean Francesco Boscutti (Italy): The shape of plant community to come: linking species functional response and climate-induced shifts in alpine tundra dwarf shrub community Michele Di Musciano (Italy): Dynamics of mountain vegetation under global change: the microclimate role Diego Panzeri (Italy): Future distribution of demersal species in a warming Mediterranean sub-basin Giacomo Trotta (Italy): Soil salt, nitrogen and organic matter content drive early successional plant community composition in dune systems by curbing alien invasion and enhancing native plant diversity. Ralf Ohlemuller (New Zealand): Up or Around – contrasting effects of elevation
