

## **Dirk Walter**

Dirk Walter holds a PhD in chemistry and in human biology and is an associate Professor for Chemistry at the Justus-Liebig-Universität in Gießen, Germany.

He is the head of Chemistry and Physics Laboratories at the Institute for Occupation and Social Medicine. In addition, he leads an interdisciplinary research team at the Institute for Inorganic and Analytical Chemistry. His research focus is on the Occupational toxicology on nanoparticles and dusts. Mechanism of reactions of oxidic inorganic solids represents a further focus of research.

He is a member of the Permanente DFG-Senate Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area. Furthermore, he is a member of the Board of the German Society for Occupational, Social and Environment Medicine (DGAUM). Moreover, he is also the chairman of the board of the German Society for Thermal Analysis (GEFTA), Germany.
