

## Peter Šimon

### List of selected papers:

1. Jóna E., Šimon P., Jorík V. & Koman M., *Thermochimica Acta* **290** (1997) 219-225: A thermochemical investigation of guest-host interaction in labile Werner clathrates of the  $[\text{Ni}(\text{4-EtPy})_4(\text{NCS})_2]\cdot\text{G}$  type (G = methyl derivatives of benzene).
2. Jóna E., Kubranová M., Sirota A. & Šimon P., *Journal of Thermal Analysis* **52** (1998) 373-382: Thermochemical properties of neutral complexes in layer silicates. I.  $[\text{Ni}(\text{4-EtPy})_4(\text{NCS})_2]$  complex in montmorillonite and pillared montmorillonites.
3. Šimon P. & Kučma A., *Journal of Thermal Analysis and Calorimetry* **56** (1999) 1107-1113: DSC analysis of the induction period in the vulcanisation of rubber compounds.
4. Šimon P., Kolman L., Niklová I. & Schmidt Š., *Journal of American Oil Chemists' Society* **77** (2000) 639-642: Analysis of the induction period of oxidation of edible oils by differential scanning calorimetry.
5. Bishop D.W., Thomas P.S., Ray A.S. & Šimon P.: *Journal of Thermal Analysis and Calorimetry* **64** (2001) 201-210: Two-stage kinetic model for the  $\alpha$ - $\beta$  phase recrystallisation in nickel sulfide.
6. Šimon P. & Kolman L., *Journal of Thermal Analysis and Calorimetry* **64** (2001) 813-820: DSC study of oxidation induction periods.
7. [Jóna E.](#), [Ondrušová D.](#), [Pajtašová M.](#), [Šimon P.](#) & [Michálek J.](#), *Journal of Applied Polymer Science* **81** (2001) 2936-2943: A study of curative interactions in the presence of cobalt(II) stearate.
8. Pajtašová M., Jóna E. & Šimon P., *Journal of Thermal Analysis and Calorimetry* **67** (2002) 129-134: Thermal characteristics of Cu(II) carboxylates with fatty acid chains and their pyridine adducts.
9. Ondrušová D., Jóna E. & Šimon P., *Journal of Thermal Analysis and Calorimetry* **67** (2002) 147-152: Thermal properties of N-ethyl-N-phenyl-dithiocarbamates and their influence on the kinetics of cure.
10. Majling J., Šimon P. & Khunová V., *Journal of Thermal Analysis and Calorimetry* **67** (2002) 201-206: Optical transmittance thermal analysis of the polyethylene terephthalate foils.
11. Papánková B., Vrbová M., Boča R., Šimon P., Falk K., Miede G. & Fuess H., *Journal of Thermal Analysis and Calorimetry* **67** (2002) 721-731: DSC monitoring of the spin crossover in Fe(II) complexes.
12. Jóna E., Pajtašová M., Ondrušová D. & Šimon P., *Journal of Analytical and Applied Pyrolysis* **63** (2002) 17-27: Influence of temperature on curative interactions with the participation of metal carboxylates as adhesive promoters: the interactions of Cu(II) hexadecanoate with stearic acid, N,N-dicyclohexylbenzothiazole-2-sulfenamide, sulfur and zinc oxide.

13. Thomas P.S., Šimon P. & Ray A., *Journal of Thermal Analysis and Calorimetry* **72** (2003) 801-809: The effect of thermal history on the morphology of nickel sulphide.
14. Šimon P., Thomas P.S., Okuliar J. & Ray A., *Journal of Thermal Analysis and Calorimetry* **72** (2003) 867-874: An incremental integral isoconversional method. Determination of activation parameters.
15. Papánková B., Šimon P. & Boča R., *Solid State Chemistry V - Solid State Phenomena* **90-91** (2003) 177-181: Fitting the heat capacity for spin crossover systems.
80. Šimon P., Veverka M. & Okuliar J., *International Journal of Pharmaceutics* **270** (2004) 21-26: New screening method for the determination of stability of pharmaceuticals.
16. Jóna E., Nemčeková K., Plško A., Ondrušová D. & Šimon P., *Journal of Thermal Analysis and Calorimetry* **76** (2004) 85-90: Thermal properties of oxide glasses. Part I: Verification of various criteria of thermal stability vs. crystallization.
17. Šimon P., *Journal of Thermal Analysis and Calorimetry* **76** (2004) 123-132: Isoconversional methods – fundamentals, meaning and application.
18. Jóna E., Nemčeková K., Šimon P., Plško A. & Ondrušová D., *Glass Science and Technology (Glastechnische Berichte)* **77** (2004) 387-392: Effect of an addition of TiO<sub>2</sub> on the thermal stability of Li<sub>2</sub>O.SiO<sub>2</sub> glasses – application of various criteria.
19. Cibulková Z., Šimon P., Lehocký P. & Balko J., *Polymer Degradation and Stability* **87** (2005) 479-486: Antioxidant activity of p-phenylene diamines studied by DSC.
20. Šimon P., *Journal of Thermal Analysis and Calorimetry* **79** (2005) 703-708: Single-step kinetics approximation employing non-Arrhenius temperature functions.
21. Šimon P., Nemčeková K., Jóna E., Plško A. & Ondrušová D., *Thermochimica Acta* **428** (2005) 11-14: Thermal stability of glass evaluated by the induction period of crystallization.
22. Thomas P. & Šimon P., *Journal of Thermal Analysis and Calorimetry* **80** (2005) 77-80: A pseudoisothermal kinetic analysis of the recrystallisation of nickel sulphide measured by non-isothermal DSC.
23. Cibulková Z., Šimon P., Lehocký P. & Balko J., *Journal of Thermal Analysis and Calorimetry* **80** (2005) 357-361: Antioxidant activity of 6PPD derivatives in polyisoprene matrix studied by non-isothermal DSC measurements.
24. Šimon P., Cibulková Z. & Thomas P., *Journal of Thermal Analysis and Calorimetry* **80** (2005) 381-385: Accelerated thermooxidative ageing tests and their extrapolation to lower temperatures.
25. Gregorová A., Cibulková Z., Košíková B. & Šimon P., *Polymer Degradation and Stability* **89** (2005) 553-558: Stabilization effect of lignin in polypropylene and recycled polypropylene.
26. Polavka J., Paligová J., Cvengroš J. & Šimon P., *Journal of American Oil Chemists' Society* **82** (2005) 519-524: Oxidation Stability of Methyl Esters Studied by Differential Thermal Analysis and Rancimat.

27. Kučerík J., Kovář J., Pekař M & Šimon P., *Naturwissenschaften* **92** (2005) 336-340: Evaluation of oxidation stability of lignite humic substances by DSC induction period measurement.
28. Šimon P., *Journal of Thermal Analysis and Calorimetry* **82** (2005) 651-657: Considerations on the single-step kinetics approximation.
29. Fratričová M., Šimon P., Schwarzer P. & Wilde H.-W., *Polymer Degradation and Stability* **91** (2006) 94-100: Residual stability of polyurethane automotive coatings measured by chemiluminescence and equivalence of Xenotest and Solisi ageing tests.
30. Šimon P., Illeková E. & Mojumdar S.C., *Journal of Thermal Analysis and Calorimetry* **83** (2006) 67-69: Kinetics of crystallization of metallic glasses studied by non-isothermal and isothermal DSC.
31. Šimon P., *Journal of Thermal Analysis and Calorimetry* **84** (2006) 263-270: Induction periods – theory and applications.
32. Jóna E., Šimon P., Nemčková K., Pavlík V., Rudinská G. & Rudinská E., *Journal of Thermal Analysis and Calorimetry* **84** (2006) 673-677: Thermal properties of oxide glasses - Part II. Activation energy as a criterion of thermal stability of  $\text{Li}_2\text{O} \cdot 2\text{SiO}_2 \cdot n\text{TiO}_2$  glass systems against crystallization.
33. Šimon P., Fratričová M., Schwarzer P. & Wilde H.-W., *Journal of Thermal Analysis and Calorimetry* **84** (2006) 679-692: Evaluation of the residual stability of polyurethane automotive coatings by DSC - Equivalence of Xenotest and desert weathering tests and the synergism of stabilizers.
34. Gyepi-Garbrah S.H., Šimon P. & Šilerová R., *Journal of Thermal Analysis and Calorimetry* **85** (2006) 401-407: Effect of chain length of some 2D and 3D alkanethiols on gold studied by DSC and voltammetry.
35. Šimon P. & Polavka J., *Journal of Food and Nutrition Research* **45** (2006) 166-170: Thermooxidative degradation of dried milk studied by non-isothermal thermogravimetry.
36. Smallwood A., Thomas P.S., Ray A.S. & Šimon P., *Journal of Thermal Analysis and Calorimetry* **88** (2007) 185-188: TMA and SEM characterization of the thermal dehydration of Australian sedimentary opal.
37. Thomas P.S., Šimon P., Smallwood A. & Ray A.S. , *Journal of Thermal Analysis and Calorimetry* **88** (2007) 231-235: Estimation of the diffusion coefficient of water evolved during the non-isothermal dehydration of Australian sedimentary opal.
38. Šimon P., *Journal of Thermal Analysis and Calorimetry* **88** (2007) 709-715: The single-step approximation: Attributes, strong and weak sides.
39. Kolek E., Šimon P. & Šimko P., *Journal of Food Science* **72** (2007) 341-344: Nonisothermal kinetics of acrylamide elimination and its acceleration by table salt—a model study.
40. Šimon P., Zhong W., Bakoš D., Hynek D., *Chemical Papers* **62** (2008) 176–180: Thermooxidative stability of polymethyl methacrylate containing nanoparticles of silica/titania and silica/zirconia.

41. Šimon P., Hynek D., Malíková M. & Cibulková Z., *Journal of Thermal Analysis and Calorimetry* **93** (2008) 817-821: Extrapolation of accelerated thermooxidative tests to lower temperatures applying non-Arrhenius temperature functions.
42. Šimon P., Jóna E. & Pavlík V., *Journal of Thermal Analysis and Calorimetry* **94** (2008) 421-425: Thermal properties of oxide glasses. Part III. Thermal stability of  $\text{Li}_2\text{O} \cdot 2\text{SiO}_2 \cdot n\text{MeO}_2$  glasses (Me=Ti, Zr).
43. Mojumdar S.C., Šimon P. & Krutošíková A., *Journal of Thermal Analysis and Calorimetry* **96** (2009) 103-109: [1]BENZOFURO[3,2-*c*]PYRIDINE - Synthesis and coordination reactions.
44. Brindzová L., Zalibera M., Šimon P., Čertík M., Takácsová M., Mikulajová A., Mikušová L. & Rapta P., *International Journal of Food Science and Technology* **44** (2009) 784–791: Screening of cereal varieties for antioxidant and radical scavenging properties applying various spectroscopic and thermoanalytical methods.
45. Šimon P., *Journal of Thermal Analysis and Calorimetry* **97** (2009) 391-396: Material stability predictions applying a new non-Arrhenian temperature function.
46. Cibulková Z., Šimon P., Lehocký P., Kosár K. & Chochulová A., *Journal of Thermal Analysis and Calorimetry* **97** (2009) 535-540: DSC study of antioxidant activity of selected *p*-phenylenediamines in styrene-butadiene rubber.
47. Smallwood A., Thomas P.S., Ray A.S. & Šimon P., *Journal of Thermal Analysis and Calorimetry* **97** (2009) 685-688: Application of a Fickian model of diffusion to the dehydration of graded specimens of a precious Australian sedimentary opal derived from Coober Pedy.
48. Thomas P.S., Šesták J., Heide K., Fueglein E. & Šimon P., *Journal of Thermal Analysis and Calorimetry* **99** (2010) 861-867: Thermal properties of Australian sedimentary opals and Czech moldavites.
49. Cibulková Z., Šimon P., Lehocký P., Kosár K. & Uhlár J., *Journal of Thermal Analysis and Calorimetry* **101** (2010) 679–684: DSC study of the influence of *p*-substituted diphenyl amines on the thermooxidative stability of styrene-butadiene rubber.
50. Šimon P. & Cvengroš J., *European Journal of Lipid Science and Technology* **112** (2010) 1236–1240: Thermooxidative stability of vegetable oils refined by steam vacuum distillation and by molecular distillation.
51. Vizárová K., Reháková M., Kirschnerová S., Peller A., Šimon P. & Mikulášik R., *Journal of Cultural Heritage* **12** (2011) 190-195: Stability studies of materials applied in the restoration of a baroque oil painting.
52. Šimon P., *Thermochimica Acta* **520** (2011) 156-157: Fourty years of the Šesták-Berggren equation.
53. Šimon P., *Journal of Food and Nutrition Research* **50** (2011) 133-138: The concept of single-step approximation and the non-Arrhenian kinetics in modelling the processes occurring in foods.

54. Cibulková Z., Černá A., Šimon P., Uhlár J., Kosár, K. & Lehocný P., *Journal of Thermal Analysis and Calorimetry* **105** (2011) 607-613: Stabilization effect of potential antioxidants on the thermooxidative stability of styrene-butadiene rubber.
55. Cibulková Z., Černá A., Šimon P., Uhlár J., Kosár, K. & Lehocný P., *Journal of Thermal Analysis and Calorimetry* **108** (2012) 415-419: DSC study of stabilizing effect of antioxidant mixtures in styrene-butadiene rubber.
56. Fukumoto T., Thomas P.S., Stuart B.H., Šimon P., Adam G., Shimmon R. & Guerbois J.-P., *Journal of Thermal Analysis and Calorimetry* **108** (2012) 439-443: Estimation of the storage life of dimethylol urea using nonisothermal accelerated testing.
57. Černá A., Cibulková Z., Šimon P., Uhlár J. & Lehocný P., *Polymer Degradation and Stability* **97** (2012) 1724-1729: DSC study of selected antioxidants and their binary mixtures in styrene-butadiene rubber.
58. Šesták J., Šimon P. & Holba P., *Journal of Thermal Analysis and Calorimetry* **114** (2013) 459-462: Hot topics of thermal analysis - New books on glass thermophysical research and open-access web site <Thermotics.eu>.
59. Peller A., Reháková M., Ciglanská M. & Šimon P., *Chemical Papers* **68** (2014) 564-574: Role of thermoxidation and depolymerisation in the ageing of systems paper/gum arabic/historical ink.
60. Šimon P., Thomas P., Dubaj T., Cibulková Z., Peller A. & Veverka M., *Journal of Thermal Analysis and Calorimetry* **115** (2014) 853-859: The mathematical incorrectness of the integral isoconversional methods in case of variable activation energy and the consequences.
61. Fukumoto T., Thomas P.S., Šimon P., Dubaj T., & Stuart B.H., *Journal of Thermal Analysis and Calorimetry* **116** (2014) 619-624: Estimation of the curing rate of acrylamide used as a consolidant in heritage sandstone conservation.
