Dear Colleagues,

It is our great pleasure to welcome you to the **NOAR Conference 2026**, which will take place from 9 – 11 November 2026 at the Maritim Hotel Düsseldorf, Germany.

The NOAR Europe unites an international and interdisciplinary community committed to the advancement of astatine-211-based radiopharmaceuticals and targeted alpha therapy. Over the past years, NOAR has demonstrated the strength of collaborative research across radiochemistry, preclinical development, clinical translation, and regulatory science. The conference aims to build on this momentum by providing a focused platform for scientific exchange, discussion, and strategic alignment.

The conference will address key challenges and recent progress in the field, ranging from production and radiochemistry of astatine-211 to biological evaluation, dosimetry, and clinical perspectives. By bringing together researchers, clinicians, and stakeholders from academia, research institutions, and industry, the conference seeks to foster new collaborations and to support the translation of innovative concepts into clinical reality.

We are particularly pleased to host the NOAR Conference 2026 at the Maritim Hotel Düsseldorf, offering an inspiring environment for scientific dialogue and networking. Alongside an engaging scientific programme, the meeting will provide ample opportunities for discussion, interaction, and the exchange of ideas across disciplines and career stages.

We cordially invite you to contribute to the NOAR Conference 2026 by submitting your work, taking part in discussions, and engaging with the community. We look forward to welcoming you in Düsseldorf and partnering to shape the future of astatine-based targeted alpha therapy together.

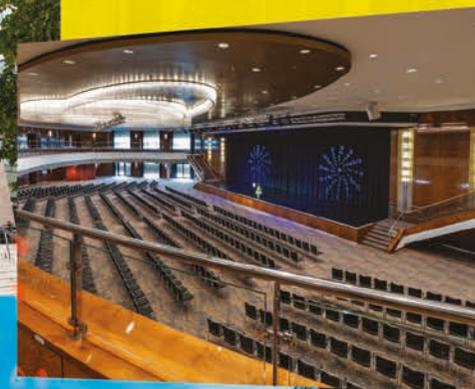

Why support NOAR Europe 2026

Sponsoring **NOAR Europe 2026** will enable your company to connect with potential business partners, inspire innovative ideas, acquire new knowledge, establish collaborations, and engage with a well-defined professional community of scientists and researchers specialising in industrial crystallisation.

The exhibition area is situated alongside coffee breaks, providing direct opportunities for scientific networking with conference delegates.

You may develop new professional connections and enhance your relationships with established partners.

If you do not find an ideal opportunity outlined below, please contact noareurope@akcongress.com to request a customised sponsorship package tailored to your marketing needs.

We look forward to meeting you at NOAR Europe 2026
