# INVITATION

Dear Colleagues,

In 2016, we launched a new series of radiochemical conferences: International Conference on Radioanalytical and Nuclear Chemistry (RANC). Many were sceptic, if we needed another meeting in the field. RANC-2016 proved to be a great success with more than 400 participants from 51 countries. Colleagues were eagerly waiting for the next meeting in 2019, after which we could proudly state that a new important item appeared in the conference calendar.

Our friends and colleagues were looking forward to the third meeting already in 2022, but we had to delay it because of the pandemic.

It is our great pleasure to officially announce that RANC-2023 will be held at Budapest, 7-12 May, 2023. Come and join this great community, follow the lectures and posters, take part in the discussions with your colleagues and celebrate with us next year's Hevesy Medal Laureate. This year's meeting will be dedicated to radiopharmaceutical applications.

**We are looking forward to meeting you at RANC 2023,**

Zsolt Révay, Amares Chatt, Tibor Kocsor,  
Erna Sári and Csengele Bognár

# TOPICS OF RANC 2023

Actinide analytical chemistry

Radio- and nuclear analytical methods

Radioecology and environmental radioactivity

Nuclear forensics

Advances in radiochemistry supporting the nuclear fuel cycle

Radiolabeled compounds and radiopharmaceuticals

Radioanalytical methods of long-lived radionuclides

Mass spectrometry

Neutron activation analysis

Nuclear instrumentation and methodology

Prompt gamma activation analysis

Production of radionuclides

Radionuclide separation

Education in radiochemistry

# RANC 2023 CHARACTERISTICS

## George Hevesy Medal Award

The George Hevesy Medal Award is named after George de HEVESY (1885-1966) who received the Nobel Prize for Chemistry in 1943 for his work on the use of isotopes as tracers in the study of chemical processes.

It is the premier international award of excellence in radioanalytical and nuclear chemistry. The Medal is awarded to an individual in recognition of excellence through outstanding, sustained career achievements in the fields of pure as well as applied nuclear and radiochemistry, in particular applications to nuclear analytical chemistry. Established originally in 1968 by Professor Tibor BRAUN, the then Editor-in-Chief of the Journal of Radioanalytical and Nuclear Chemistry (JRNC). The Hevesy Medal Award was given 19 times during 1968-86. This Award was reactivated in 2000 by Professors BRAUN and Amares CHATT. It is sponsored by JRNC and administered as well as adjudicated by the JRNC Board of the Hevesy Award. The Award has no monetary value.

The George Hevesy Medal Award comprises an engraved bronze medal in a presentation case and a plaque, which are presented at a major international radiochemical conference being held in the year of the award.

## Digital posters

Our self-developed digital poster solution is a great way to expand spatial and temporal constraints at a conference. It allows all posters to be available throughout the conference, while also providing a stand-alone, dedicated look. You will no longer miss a single poster presentation! To present a digital poster, all we need is a 300-dpi portrait orientated PDF file, which participants email in advance to the organizers, who prepare the files. There is no more convenient way to show your results on a poster, and you don't even have to worry about the tiniest details because everything on the digital poster can be enlarged!

## Welcome reception

At the Welcome Reception, our guests will have the opportunity to get acquainted with the venue and meet the participants of the Conference. Snacks and refreshments will be served.

## Conference dinner

While cruising the river under the magnificent bridges across the river Danube, and in front of the World Heritage view of historic Buda, the famous Parliament building and the cultural-governmental districts of Pest with a relaxing music played in the background you will enjoy a wide range of delicious Hungarian dishes paired with a great Hungarian wine selection.

# ABOUT HUNGARY

Spanning 93,030 square kilometres (35,920 sq mi) in the Carpathian Basin Hungary is located in the middle of Europe, and it is an easily accessible country from all directions. It is the thirteenth-most popular tourist destination in Europe, drawing 15.8 million international tourists in 2017, owing to attractions such as the largest thermal water cave system in the world, second largest thermal lake, the largest lake in Central Europe and the largest natural grasslands in Europe.

Hungary has a temperate seasonal climate, with generally warm summers with low overall humidity levels but frequent rainshowers and cold snowy winters. Hungary's cultural history includes significant contributions to arts, music, literature, sports, science and technology. Hungary ranks 32 nd among the most innovative countries in the Bloomberg Innovation Index, standing before Hong Kong, Iceland or Malta. At present, more than 33,000 foreigners study in Hungarian higher education institutions, they make up 16.5 percent of all full-time students.

## ABOUT BUDAPEST

Budapest is the capital and the most populous city of Hungary, and the ninth-largest city in the European Union by population within city limits. The central area of Budapest along the Danube River is classified as a UNESCO World Heritage Site and has several notable monuments, including the Hungarian Parliament (the third largest Parliament building in the world) and the Buda Castle.

Over 40 colleges and universities are located in Budapest, including the Eötvös Loránd University, the Semmelweis University and the Budapest University of Technology and Economics. The city also has around 80 geothermal springs, the largest thermal water cave system and the second largest synagogue. Budapest attracts around 12 million international tourists per year, making it a highly popular destination in Europe. The city was chosen as the Best European Destination of 2019, a major poll conducted by EBD.

# BECOME A SPONSOR OR EXHIBITOR AT RANC2023!

You can create your own sponsoring package, which provides you different sets of benefits.

The different offered packages are mentioned in the table below.

Your requests have to be sent to RANC2023 Conference Office and will be handled on a first-come first-served basis as some options may be limited in number. If a part of the package offer is already sold out, the price will be reduced accordingly. If you have other innovative ideas with respect to sponsoring or exhibition, please do not hesitate to contact the RANC2023 Conference Office.

## BENEFITS

You can establish new business contacts and strengthen your relationship with existing partners.

We expect 3-400 delegates from more than 40 countries, making this a rare opportunity for global recognition in this field

Exhibition area is co-located with coffee breaks offering direct scientific and business networking opportunity with conference delegates.

You can meet practitioners and scientists from all over the world. Nuclear chemistry professionals working for hospitals or medical institutes, for research institutes, for industries and for competent authorities, etc. are expected to participate.

Though a European conference, attendees from all over the world (countries like Japan, Korea, USA, Middle and Far East, etc.) are generally participating.

Budapest is a very attractive and easily accessible destination.
