DEAR COLLEAGUES,

The 1st International Conference on Reaction Kinetics, Mechanisms and Catalysis was organized in June, 2018 in support of the scientific journal Reaction Kinetics, Mechanisms and Catalysis. After the success of the first meeting, the 2nd edition was held entirely online in 2021 because of the COVID pandemic.

The year 2024 marks the 50th birthday of the journal Reaction Kinetics, Mechanisms and Catalysis, and the main celebration event will be the 3rd International Conference on Reaction Kinetics, Mechanisms and Catalysis. The meeting will return to the personal format and the location in Budapest that hosted us in 2018.

Researchers from all over the world are cordially invited to attend the meeting, present their most recent research and take part in the discussions. The main topics in 2024 respond to the ecological and energy crisis in modern society and hope to contribute to developing a more active role for scientist in solving these problems.

The conference organizers hope to serve a diverse research community and advance science and scientific collaborations with this event.

See you in Budapest in May 2024!

GÁBOR LENTE

Conference Chair
University of Pécs

CONFERENCE TOPICS

Catalysts in sustainable and green chemistry
Catalytic solutions for energy-related challenges
Combustion kinetics and catalysis
Exploring catalytic reaction mechanisms
Homogeneous and heterogeneous photocatalysis
Catalysts in biomass utilization
Mathematical aspects of reaction kinetics
Electrocatalysis, electrode development and fuel cells
Carbon dioxide as a resource in chemical processes
Catalysts in the hydrogen economy

ABOUT HUNGARY

Spanning 93,030 square kilometres (35,920 sq mi) in the Carpathian Basin Hungary is located in the middle of Europe, and it is an easily accessible country from all directions. It is the thirteenth-most popular tourist destination in Europe, drawing 15.8 million international tourists in 2017, owing to attractions such as the largest thermal water cave system in the world, second largest thermal lake, the largest lake in Central Europe and the largest natural grasslands in Europe.

Hungary has a temperate seasonal climate, with generally warm summers with low overall humidity levels but frequent rainshowers and cold snowy winters. Hungary's cultural history includes significant contributions to arts, music, literature, sports, science and technology. Hungary ranks 32 nd among the most innovative countries in the Bloomberg Innovation Index, standing before Hong Kong, Iceland or Malta. At present, more than 33,000 foreigners study in Hungarian higher education institutions, they make up 16.5 percent of all full-time students.

ABOUT BUDAPEST

Budapest is the capital and the most populous city of Hungary, and the ninth-largest city in the European Union by population within city limits. The central area of Budapest along the Danube River is classified as a UNESCO World Heritage Site and has several notable monuments, including the Hungarian Parliament (the third largest Parliament building in the world) and the Buda Castle.

Over 40 colleges and universities are located in Budapest, including the Eötvös Loránd University, the Semmelweis University and the Budapest University of Technology and Economics. The city also has around 80 geothermal springs, the largest thermal water cave system and the second largest synagogue. Budapest attracts around 12 million international tourists per year, making it a highly popular destination in Europe. The city was chosen as the Best European Destination of 2019, a major poll conducted by EBD.
