

Dr. Yulia Galagan

Yulia Galagan is a Senior Scientist and Project Manager at Holst Centre/TNO and Solliance (a partnership of R&D organizations from the Netherlands, Belgium and Germany working in thin film photovoltaic solar energy). She received her PhD in chemistry in 2002 from Kyiv University. She was a post-doctoral researcher at National Taiwan University, and in 2008 she joined Holst Centre. Her research interests are focused on organic and perovskite-based electronics. Dr. Galagan has an expertise in the development of printing and coating methods for different functional materials. Currently Dr. Galagan is responsible for technology development for Roll-to-Roll manufacturing of organic and perovskite-based photovoltaics. She has more than 67 peer-reviewed scientific papers, 3 book chapters and 14 patent applications.
